## COMPANY PROFILE

### THE RISING SUN

Commencing operations in 1979, as an international ocean freight broking company, the parent entity later diversified laterally into Freight Consulting, Fleet Ownership, Customs Clearing and Forwarding and agency representation. Experience has helped mold a service that is customer-centric, price attractive, flexible and exhaustive.

Sun Logistics has strived to be an innovator in the Indian shipping business. The company is one of the first to offer unique and cutting edge products such as Tank Containers and Flexi Tanks. Over three decades, the company strategically added various facets to become a truly single-window service.

Created, owned and operated by the Sundersons Group of Companies, Sun Logistics has many strings to its bow to comprehensively service any logistics requirements

### Mission

To serve our customers in a professional, ethical and transparent manner by incorporating and retaining value based systems in technology and human resources, with trustworthy expertise in shipping and related fields. We want to make it big by emphasizing on customer satisfaction factor. Our clients' interests always come first. Our experience shows that if we serve our clients well, our own success will follow.

### Vision

To be a world class integrated logistics services and solutions provider in niche markets leveraging on technology and operational excellence, to provide high value-added services for today's global business.

- ◆ Sale and purchase of ships.
- ◆ Ship Operating.
- ◆ Ship management.
- ◆ Towage (Wet and Dry).
- ◆ Freight Consultancy, Market Information.

**SUN LOGISTICS**

The most cost-effective, Bulk Liquid Solution! The versatile and seamless multi-Layered SUN FlexiTank. It is the ideal choice for shipping non-hazardous chemical and food grade liquid products. Sun FlexiTank system has proven more cost-effective with a higher payload volume than drums, IBCs and other alternatives. SUN FlexiTanks benefit you with low transportation costs by converting your box containers into tank containers! SUN FlexiTanks are manufactured under quality management systems in conformity with ISO 9001:2008 and comply with the FDA regulations.

All tanks are insured against any manufacturing defects with product liability insurance, giving customers a complete peace of mind.

SUN provides different types of FlexiTanks as per the nature of the cargo and customer's requirements. With a volume of 16 to 24 KL, these flexitanks are available in different configurations for the convenience of clients.

They are:

**Top Load /  
Top Discharge**

**Top Load / Bottom  
Discharge**

**Bottom Load /  
Bottom Discharge**

- **Wine Sun FlexiTanks :**

Aluminium Foil barrier Sun FlexiTank for wines, especially for long-term shipments. The Aluminium Foil keeps the wine in good quality as it does not allow any oxygen, moisture content and sunlight to get in contact with the same.

- **Sun FlexiTanks with Airvents :**

Sun Flexitanks can be provided with Auto Air vents for releasing Air pressure inside the flexitank. Auto Airvent works automatically if the flexitank is under pressure (approx.between 1-2 psi), more like a balance vent. We provide P.P Air Vents and the same can function under high temperature (such as 80°C).

- \* Sun FlexiTanks are available in 2 inch or 3 inch polypropylene valves.
- \* All tanks are insured against any manufacturing defects with product liability insurance, giving customers a complete peace of mind.

**SUN LOGISTICS**

Sun Logistics has an extensive line of ISO Containers, stainless steel ISO tank containers, IMO tank containers and UN portable tanks that can be used to ship a hazardous and non-hazardous liquid materials. These versatile tanks, which are approved to ISO standards, can be equipped with insulation, steam heating, electric heating or refrigeration for products that require temperature control, top and/or bottom discharge, protective linings and other modifications. Products stored or transported by these containers vary from non-hazardous and hazardous chemicals. These units are specially designed for repeat use in the transportation of bulk liquid product to, from and between fixed and/or mobile consumption points.

We at Sun Logistics provide ISO tanks on short/long term lease irrespective of the region. At present we are managing around 300+ tanks to carry variety of liquid cargo's.

## **BITUMEN TANKS or BITUTAINERS (T3)**

20' HC T3 ISO BITUMEN TANK are approved by international statutory authorities for the safe transportation of Bitumen, Asphalt, Emulsion and Heavy Crude Oil products. Available with Flame Tube heating systems (Heating by Diesel Burners) or Thermal Oil Heating System. Heating-up to 170 C degree operating temperature less than 8 hours. We operate and manages a fleet of over 50 Bitutainers and this fleet primarily serves the needs of customers in the rapidly growing infrastructure sector in Middle East. The Fleet includes units ranging in size from 21 KL, which are ideal for small ports and rail transportation, up to 27 KL. Bitutainers resemble corrugated GP boxed, but are equipped with a top manhole and bottom outlet. The Bitutaners also have dual-burner heating tubes (uses Diesel fuel), enabling on-site heating and storage. Our leased bitutainers are ISO certified for sea, road and rail transportation

## **LPG TANKS (T 50)**

Sun Logistics fleet of 20' HC T50 ISO LPG TANKS, provide a flexible and model friendly means to transport liquefied gases, safely and cost effectively. We offer tanks in a variety of capacity and pressure ratings with or without baffles and or linings. Our tanks comply with IMDG, US-DOT CFR49 - under exemption, ADR/RID, UIC, TIR, CSC, TC.

Equipment and options:

- ◆ Bottom discharge with 3 closures and standard couplings (liquid and gas lines)
- ◆ Valve cabinet with lockable door
- ◆ Design Code ASME VIII Division 2 (ASME "U2" stamp)
- ◆ Internal zinc coating (optional)
- ◆ Baffles (optional)
- ◆ Level gauge optional

Typical LPG ISO tank sizing is 6.05m (20ft) long x 2.4m wide x 2.55m high, although other sized also exist, including 12.2m (40ft) versions. Capacity of the 6m ISO LPG tank is 24 KL-25 KL or around 12 tons of LPG. When a tank container is built to the ISO standards to be "intermodal", making it suitable for different modes of transportation and stackable. These containers can be used for transport by ship, rail or truck, being transferred between them without unloading/reloading the LPG cargo

**SUN LOGISTICS**

We at Sun Logistics handles general storage facility and manages storage and distribution services for many companies in the UAE. Further, we cater to customers who imports bulk cargo to the UAE and re-export to another Middle East/India /Africa destinations.

In a nutshell, we manage 5000 SQ MT covered warehouse in Jebel Ali & Al Qusais in UAE. In addition, we manage an open yard of 15000 SQ MT for storage of Containers (All types), Machineries, Heavy Equipment's and Earth movers

In future, as part of our vision, Sun Logistics will consolidate and manage the movement of Merchandise from and to distribution centers, retail outlets domestically. We will provide consolidation services that improves reliability and reduces Supply chain costs for our customers.

Apart from the simple cargo consolidation programs, all the other programs can be so designed to allow un-loading at destination distribution centers with arrangements for cross dock delivery or direct distribution to retail stores. These kinds of arrangements give significant costs reduction of distribution at destinations for customers.
